

## Summer Studies 2017

### Studying in the beautiful Finnish lake district

The Saimaa University of Applied Sciences offers studies also during the summer time, from May to August. Summer studies are an excellent opportunity if you wish to spend a few weeks in the beautiful Finnish lake district studying and having fun.

Summer courses are taught by the lecturers of Saimaa UAS or by visiting professors from our foreign partner universities. The contact lessons will be held in August at the Saimaa University of Applied Sciences, in Lappeenranta, Finland. Please notice that because of the timetables you are able to study more than one course at the same time.

We offer you a selection of courses, e.g. in business and mechanical engineering. You will find the list of the courses in training calendar on our website: <https://www.saimia.fi/en-fi/studies/study-information/summer-studies>

### The enrolment period

for the summer studies is 15.03.17 – 30.04.17

**Tuition fee:** 1 ECTS = 15 euro

**Accommodation** in August is arranged by Saimaa UAS' international office upon request.
